a guide to surviving Thanksgiving with your Republican family

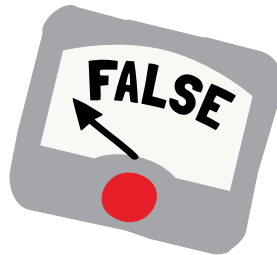

"Obamacare is in a death spiral. It should be repealed!"

More than **20 MILLION** Americans gained health insurance under Obamacare.

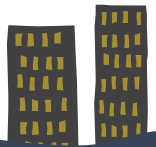

More than 129 million Americans with pre-existing conditions can no longer be denied coverage or charged more.

Politifact rated the statement that Obamacare "is in a death spiral" as FALSE.

"Climate change is fake news!"

Data shows a consistent and scary rise in temperatures, sea levels, and extreme weather in recent years!

It's WAY cheaper to invest in sustainable energy now than pay for the damage climate change would cause in the future.

Every country in the entire world has signed onto the Paris climate agreement -- except us!

"President Trump is right to end DACA. All undocumented immigrants should be deported."

The DACA program **ONLY** covers law-abiding young immigrants and allows them to make strong contributions to our country and economy.

Most DACA recipients were brought into the United States as young children. This is, and has always been, their home.

"The Republican tax plan will lower taxes for ALL middle class families."

Even Mitch McConnell admitted this was false! Half of middle class families would pay **MORE** taxes under the Republican tax plan.

President Trump, however, will get a massive tax break. He could save more than **\$1 BILLION** under the new plan.
